

# ELEVATE YOUR DOCK *Life*

## with PWC PORTS

EZ Dock ports protect your PWCs from the elements, while helping you get in and out of the water as effortlessly as possible. Our patented design pioneered the use of adaptable rollers, perfected the self-centering split entry, and created the modular inline system for the simple, durable, and efficient storage of multiple PWC's.

- UV-16-protected, rotationally molded polyethylene
- Industry-leading impact resistance requires no environmentally harmful foam filling
- Adjustable rollers
- Attaches to existing EZ Dock or traditional dock system or can be secured to the shore or a lake bed without a dock
- Keeps any PWC high and dry, protecting your investment
- Available in beige or gray
- 62.5 lbs. per square foot, including dead load

## DESIGNED TO KEEP YOUR PWC **SAFE, STABLE, & *Easy to Use***
